Shane -

Excellent work and congratulations to all for our collective commitment in seeing Streetcar achieve this significant milestone!

Best -

Hi all,

After passing through PLUM Committee last week, City Council voted today to certify the streetcar final EIR and approve the recommended 7th Street alignment and 2nd/Broadway maintenance and storage facility location. This is a really big step forward for the project, so I hope you'll all take a minute to give yourselves a pat on the back for helping us get to this point.

We didn't ask board members to attend because streetcar was one of 41 items and it was expected to pass on consent (no speakers), but the Councilmember did have some nice words to say about everyone's work on the project, including that of LASI. After he spoke, the vote was held and it passed unanimously, 13-0.

Thank you again to everyone for your contributions and support over the years. Looking forward to your continued involvement and a lot more progress in 2017!
